

# eLearning tools on child labour

The courses are designed to help to better understand what child labour is and the key role ILO stakeholders can play.

The content is presented on dynamic screens with interactive tests and exercises. They are free of charge and can be completed anywhere and at one's own pace. User can interrupt going through the modules at any time, and later continue from where one stopped last time (if using the same computer). Inputs to assignments are automatically saved and kept confidential, and can be printed.
